NOTICE OF CORRECTIONS

Leasing Maps Central Gulf of Mexico

The MMS recently published in the Federal Register (65 FR 2191, January 13, 2000) the status of OCS Leasing Maps and Official Protraction Diagrams.

Two of the revised Leasing Maps have errors in the block numbers; one of these Maps also has a typographical error in the note which specifies acreage of certain blocks.

Leasing Map LA3C (South Marsh Island Area, South Addition), dated September 1, 1999:

Blocks are erroneously numbered 1 through 136; they should be numbered 71 through 206. That is, Block 1 should be shown as Block 71, Block 2 as Block 72, etc. Block numbers can be corrected by adding 70 to the number shown on the Map.

Leasing Map LA8A (West Delta Area, South Addition), dated September 1, 1999:

Blocks are erroneously numbered 1 through 45; they should be numbered 110 through 154. That is, Block 1 should be shown as Block 110, Block 2 as Block 111, etc. Block numbers can be corrected by adding 109 to the number shown on the Map.

Also on Map LA8A, in the text note in the lower left hand corner, the next-to-last sentence of the first paragraph should read: "Each regular square block contains 4999.97 acres."

The MMS regrets these errors.

It should be noted that the versions of both of these Maps dated June 1, 1988, are correct and can be used to prepare bids for Sale 175.

Corrected Maps should be available by the end of March 2000; an announcement will be made in the Federal Register and the Maps will then be available through our Public Information Unit (as hard copy and on CD-ROM) and on our Internet homepage.
